Scott Henshaw

Full Stack Developer

ENTP Personality Type — INTJ-A (Architect)

Projects

Raw Korean — Korean learning website for English speakers

Full-Stack Developer

— **Full-Stack (ReactJS, CSS, Redux, PHP, MySQL, Axios, react-beautiful-dnd API)**
— **Developed a Drag & Drop game for practicing grammar, an Image Upload component for user profile pictures, and an Entertainment page with articles and user comments from the database.**
— **Collaborated using sprint planning, scrum, and Trello**

https://github.com/ScottHenshaw86/Korean

Online Brochure — International School

Front-End Developer

— **Front-End Development (HTML, CSS)**
— **Designed an interactive online brochure to advertise the school.**
— **Utilized a variety of CSS animations to highlight key information and keep viewers' attention.**

https://github.com/ScottHenshaw86/StPaul

Weather Website — 5 Day Weather Forecast for Cities

Full Stack Developer

— **Full-Stack Development (HTML, CSS, Javascript, PHP, AJAX, OpenWeather API)**
— **Coded an autocomplete search input to find and display the weather forecast for a chosen city using the OpenWeather API**

https://github.com/ScottHenshaw86/Weather

Drag & Drop Target Game — Drop the correct box into a randomly generated target area.

Front-End Developer

— **Front-End Development (Mostly Javascript, some HTML & CSS)**
— **Coded all features from scratch in Vanilla Javascript, without the use of any libraries**

https://github.com/ScottHenshaw86/DragDrop
